\*Expected to be signed within 3-6 months.

X-Town Connector Construction Funding Update: TDC has scheduled \$3.2m to be granted to the City

Councilmember Menchel pointed out that in the “General Fund Transfer Out” slide, general fund for “Special Capital Projects” showed a total of \$3 million. He asked what the other million dollar funding was for since the cost for beach acquisition was only \$2 million,

Ms. Strickland explained the other million dollars are distributed amongst certain projects that require match funding.

Referencing the “General Fund Balance” slide, Councilmember Menchel inquired as to the purpose for “emergency” funding.

Ms. Strickland noted that the City has two accounts created with Raymond James. She has not found the background for these accounts, however, both accounts are very clearly designated as emergency funds.

Next, Councilmember Menchel pointed out that under "Available Funding", in the "Updated 5-Year Capital Budget Summary" slide, "Police Protection Impact Fees" and "Traffic Impact Fees" showed a much higher number in FY 21 than in both FY 22 and FY 23. He asked why there was such a difference in number.

Ms. Strickland explained that funds have built up over the years that are restricted towards growth necessitated transportation needs for FY 21; adding they anticipate developers paying the City an additional \$20,000 minimum a year from FY 22 moving forward,

Councilmember Menchel asked if they have attempted to rebid the health insurance portion of the budget to get a better rate.

According to Ms. Strickland, the Human Resources Director Karen Jankowski is not available to speak to that issue this evening; however, Ms. Jankowski is a very prudent person and follows these pricings very closely. She added that Ms. Jankowski is known to go out and either search for another broker or search the territory for better pricing when it is reasonable to do so.

Councilmember Ramswell asked how they stood with the general unassigned fund balance.

Ms. Strickland stated the general unassigned fund balance total is where it should be at this time; adding they should have at least a minimum of 3 months general operating expenditures funding on hand.

Councilmember Ramswell asked how long the City's 11 positions have been vacant and how they may be able to fill these positions.

The City Manager explained that some of the non-essential positions have been intentionally frozen during the pandemic, which came about in March this year. However, they are still trying to hire for the other essential positions, such as the City Engineer position, which are a lot tougher to fill.

Ms. Strickland noted that August 4, 2020 is the deadline to certify their millage rate to the Tax Collector; at which point they set the millage rate to a certain level. They could only lower the millage rate but not increase it until the final adoption of the budget in September. She recommends leaving the ad valorem rate at 1.615. It would technically be a tax increase of 4.25%. She feels it would be more prudent to continue maintaining the millage rate at this point, and that the additional income is so important at this critical juncture for the City where they are so close to achieving some of their primary objectives on their strategic plan.

Councilmember Ramswell asked whether Ms. Strickland, as Finance Director, had any recommendations, possibly a different way of allocating funds that would be more advantageous and beneficial to the City.

Ms. Strickland stated that she has been looking at the current way expenditures are being allocated. Like in many other cities, citizens want to see more fund spent on parks and recreation and less on general government. One thing this city has not been doing to the best of its ability is allocating out those general fund expenses though they have a lot of expenses like maintaining the parks and recreation facilities. She continued that they will see incremental changes over the next 18 months with better parks and recreation numbers and public works transportation; and with

general funds expenditures going down. It will be a slow process as she will need more time to go through the books and recalculate and reallocate funds. She added that the City is in a very good shape funding-wise. They are at the appropriate level to meet all their strategic objectives. They do not want to jeopardize their future funding for the undergrounding of the utilities, which is why they need to stay in a nice and slow steady course and work with a solid financial advisor who understands both the bonding and grant funding world.

#### **B. Update on Cares Act Funding**

The Deputy City Manager Webb Warren stated that the City has had great partnership with Okaloosa County. They are working in conjunction with the other local cities and the County to find and identify opportunities to help deal with issues during this pandemic. Funds are being released to the County level. The Cares Act Funding must go toward direct action on the COVID-19 pandemic. It cannot supplant any existing funding. He also stated that the City is experiencing challenges with staffing as well as some consulting. The Cares Act gives an opportunity for the City to get some outside consulting on the ENERGOV project to help keep it on track. It is one example of projects they will be working with the County and staff could potentially bring Council an agenda item at their upcoming regular meeting to approve a contract.

Councilmember Menchel inquired as to the status of document scanning.

Mr. Warren noted that the organization they contracted was heavily impacted by the pandemic which has slowed things down on this project considerably.

Councilmember Menchel stated this is something they may want to consider with regards to Cares Act Funding.

#### **C. Update on Beach Acquisition Funding – TDC/Okaloosa County**

The Deputy City Manager noted that the City has been working with the County organization on this endeavor, and that everything has been going very well.

#### **PUBLIC COMMENTS**

#### **ADJOURNMENT**

Having no further business at this time, the meeting was adjourned at 6:15 PM.
